

Thrice Poster

One of my first projects done at MassArt, this one is still a personal favorite of mine. The point of the project was to simply design a poster for a specific song, by a band of our choice. Thrice is a longtime favorite band of mine, and the song "Digital Sea" immediately came to mind. This was inspired by this specific line in the song:

"And my voice goes, to 1's and 0's".
